

2020-05-14 BC's Restart Plan

Dear Registrant:

The CNPBC continues to receive a high volume of queries regarding BC's Restart Plan. We know that naturopathic doctors have questions about many topics, including PPE, infection control measures, and safety for clinic employees. As set out in our email to the profession of last night - <https://www.cnpbc.bc.ca/wp-content/uploads/2020-05-13-COVID-19-Update-BCs-Restart-Plan.pdf> - the College is part of a coordinated, multi-agency effort to develop and distribute consistent guidance for all healthcare professionals in BC.

Based on recent discussions, we understand that materials are being finalized. We are hopeful, though not certain, that information will be made available tomorrow. We thank you for your patience and understanding as we work with other regulators and key agencies to provide you with sound guidance going forward.
